Art Unit: 3653

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 2, 4, 6 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 line 7, it is not understood what is meant by the language "and in response thereto." What is responding to what?

In claim 4 lines 2-4, it is not understood how the sheet input system is automatically raisable as no means for accomplishing this functions has been clearly recited.

In claim 6 lines 4-5, the language "the motor driven pivoting of said stack edge tampers" lacks antecedent basis. This language implies that the tampers are motor drive when this has not been previously defined as such. Also, no motor to drive the tampers has been previously recited.

In claim 7 lines 3-5, it is not understood how the feeding nip is automatically repositioned as recited since no means for accomplishing this function has been previously recited.

3. Claims 1, 2, 4, 6 and 7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
4. Claims 3 and 5 are allowed.
